ENVISIONAIR

quality air analysis

Travis Garret ★ CEO

Travis Garrett is a leading expert in the analysis of environmental chemistry. Mr. Garrett is the co-owner of ENVision Laboratories, Inc., locally owned and operated in Indianapolis since 2004. Utilizing over fifteen years of experience operating and managing an environmental laboratory, Mr. Garrett's area of expertise revolves around GC/MS (Gas Chromatograph/Mass-Spectrometer) operations and maintenance. He is an expert on laboratory communications and operations management.

Mr. Garrett is now introducing his expertise of soil and water analysis into the air quality testing field, via ENVisionAir, which opened May 16th 2011, in Indianapolis. This new laboratory venture operates under the same management and business principles that grew ENVision Laboratories, Inc. into an industry leader in the environmental testing field.

Mr. Garrett graduated in 1995 from William Penn College in Oskaloosa, IA, with a Bachelor's degree in Chemistry and Biology. Upon graduation, Travis spent two years as a QA/QC chemist for Cargill, Inc. in Eddyville, Iowa. After relocating back to his home state of Indiana, Mr. Garrett launched his career in environmental chemistry. Prior to becoming an entrepreneur in 2004, he had served as a leader for multiple national environmental laboratories. ENVision Laboratories has paved the way for the environmental testing market in Indiana for over six years. He is married with two children, and resides in New Palestine, Indiana.
