Cheryl Crum ★ Quality Assurance

Cheryl Crum has served as the Director of Project Management and Quality Assurance Officer for ENVision Laboratories since opening in 2004. Cheryl has over 14 years of environmental laboratory experience. Ms. Crum graduated in 1996 from Indiana University with a Bachelors of Science in Environmental Science and Health. Upon graduating from college, Cheryl began working in an environmental laboratory preparing and analyzing metals, performing wet chemistry tests, and analyzing Volatiles. In 2002, Cheryl moved into the Project Management area of the environmental laboratory. Cheryl is a Project Manager with a proven track record of managing projects effectively and efficiently and building relationships with clients through a variety of professional skills.
